## NEW Samson E3

2675 HU (RM 0.5)

- ✓ Strong yield levels and aggressive branching
- ✓ Excellent early season emergence

Bushy Canopy  
Medium Height

BACKGROUND		CHARACTERISTICS							
Line Number	Trait	Herbicide Tolerance(s)	Hilum Colour	Plant Height	Standability	Canopy Type	Flower Colour	Pubescence	Pod Colour
SC21-2675E3	Enlist E3™	Glyphosate Glufosinate 2,4-D Choline	Light Brown	Medium	Average	Bushy	Purple	Gray	Brown

MANAGEMENT		
Row Width (")	Soil Type	Emergence
7 – 30	All	Above Average

DISEASE & PATHOGENS						
White Mold	SCN Resistance (Source)	Phytophthora Root Rot Field Tolerance	Phytophthora Root Rot Resistance Gene(s)	Stem Canker	Brown Stem Rot	Sudden Death Syndrome
Average	No	Susceptible	Rps1k	Resistant	Resistant	N/A

Data values were collected under different management practices at different locations in different years, and are for comparison purposes only  
N/A = Not Available

**Enlist E3™ soybeans** contain the Enlist E3 trait that provides crop safety for use of labelled over-the-top applications of glyphosate, Glufosinate and 2,4-D herbicides featuring Colex-D® technology when applied according to label directions. Following burndown, the only 2,4-D containing herbicide products that may be used with Enlist™ crops are products that feature Colex-D technology and are expressly labelled for use on Enlist crops. 2,4-D products that do not contain Colex-D technology are not authorized for use in conjunction with Enlist E3 soybeans.

**WARNING:** Enlist E3 soybeans are tolerant of over-the top applications of glyphosate, glufosinate, and 2,4-D. Accidental application of incompatible herbicides to this variety could result in total crop loss. When using 2,4-D herbicides, grower agrees to only use 2,4-D products that contain Colex-D technology authorized for use in conjunction with Enlist E3 soybeans. Always read and follow herbicide label directions prior to use. Enlist 1™ and Enlist Duo™ are the only 2,4-D products authorized for use with Enlist crops. Consult Enlist herbicide labels for weed species controlled. Additional product-specific stewardship requirements for Enlist crops, including the Enlist™ Product Use Guide, can be found at [www.EnlistCanada.ca](http://www.EnlistCanada.ca). **Always read and follow label directions.** The transgenic soybean event in the Enlist E3™ soybean was jointly developed and owned by Corteva Agriscience and M.S. Technologies, L.L.C. ©™ Enlist, Enlist E3, the Enlist E3 logo, and Colex-D are trademarks of Dow AgroSciences LLC.
